A SCARCITY OF SMALL HOUSES

Tenants Can be Easily Found But the Supply Fails to Keep Pace With the Demand; Some of Those Who are Struggling With the Coming of Spring

Although this is the annual moving day, real estate agents in Connellsville report that there will be less changing of homes in town this year than in many seasons. The reason for

secure tenants for many small houses and that rentable homes in town are at a premium. Among those moving this spring are:

Joseph S. Bryner from Fairview

Mrs. Mary O'Hara from 604 Tenth street to the corner of Patterson and Sycamore street.

C. E. Bowlin to 1007 Ena street.
Mrs. Margaret Hyatt from South
street to Balsley's Hollow.
A. J. Kreggs to Fifth street, West
Side

W. T. Earl from the Newcomer to the Morton block on Pittsburg street.
Charles Hart from Johnston to

Arthur Weller from Queen street to
Huntingdon, W. Va.
Charles Rudolph from Brownsville
to Highland avenue.

Dr. H. C. Hoffman from Pittsburg
to Vine street.

Mrs Harvey Barnhart from Grape
alley to 310 Withen avenue

Anthony McNulty from Eighth street to Trotter.

U. W. Beacky to 306 East Washing-
ton avenue.
H. B. Allsworth from Fairview ave-
nue to Apple street.
William McAllister from Sycamore

Arch street.

SMITH HOUSE IS MADE NEW AGAIN; OPEN TOMORROW

Proprietor Logan Rush Will
Serve Special Dinner
to Guests.

MONTHS OF LABOR AT AN END

From Cellar to Attic Everything Has
Been Improved; Twelve Bedrooms
Are Equipped With Baths; 24 Have
Running Water; Formal Opening.

The renovated Smith House will be
again open to the public early to-
morrow. Proprietor Logan Rush has
made arrangements to serve a special
dinner to his guests tomorrow night.
The dining room will be thrown open
at 8 o'clock, and music will be fur-
nished by Kiefer's orchestra.

The hotel has been completely re-
paired, repainted and refurnished
throughout. On the first floor is the
spacious lobby with its new tile floor-
ing and marble wainscoting; the
marble-walled private office, the
three-chambered bath, the dining
room, with a capacity of 75 guests,
the kitchen, storerooms and bar.

The dining room and kitchen are
Mr. Rush's special pride. The former
has been repainted, the walls in
blue and the ceiling white. Forty-
eight incandescent lights in the ceiling
and about the walls furnish
illumination, showing the room in
best advantage. Fifteen mahogany
tables are in place. In the culinary
department the equipment is of the
most modern design. Coal stoves
have been replaced with large gas
ranges, and there is a large six sec-
tioned steaming table for the warm-
ing of soups, cooked foods, etc. New
dishes and glassware with "Smith
House" inscribed on the sides, line the
large shelves in the spacious pantry.

On the second floor are the double
parlors, the private apartments of Mr.
Rush and a dozen bedrooms. The
parlor walls are papered with a
pretty green tint, while the ceilings
are in white, with few exceptions
all of the bedrooms are with white
walls. Twelve of them are equipped
with baths, while 21 have running hot
and cold water. On the third, and
fourth floors are additional bedrooms,
making in all 52 rooms in the house.
The hotel throughout has been
renovated. Not a single stitch of
linen is old, not a carpet on the floors
have been used before, and with few
exceptions all of the bed furnishings
are new, and the workwork through-
out has been oak grained.

KIDNEYS SELDOM FREE FROM POISON

Clean Them Out and Backache, Side-
ache and Bladder Troubles
Go.

It is mighty close to the truth to say
that there are ten thousand apparently
healthy people in America today, who
will have Bright's disease, dropsy or
some form of kidney disease within
two months.

If you have backache, or the slightest
suggestion of backache, don't take
chances. Get a 50-cent bottle of
Thompson's Backache today and give
your kidneys a thorough cleaning.
They probably need it. If they don't,
Thompson's Backache is a good tonic
anyway and will do you good.

Thompson's Backache is guaranteed
by Graham & Co., Connellsville; S. A.
Lowe & Co., Scottsdale, to cure kidney
or bladder disease, no matter how dis-
tressing, or money back. Put up in
liquid form, is quickly assimilated and
goes directly to the seat of trouble.
The very first dose will make your sick
kidneys feel better, but bear this in
mind when considering a cure. Then
Thompson's Backache and Mandrake
Pills should also be used. 25c.—Ad-
vertisement.

PRESIDENT WILSON

Makes a Remark That is Distinctly
Worthy of Noting.

"I am sorry for the man who has
a bank account; he is cheating him-
self."—Woodrow Wilson.
By that remark President Wilson
meant that the man who doesn't avail
himself of the free service a bank
offers him in many financial matters
and the interest a bank pays on time
deposits, is really robbing himself.
However, many a man does this under
a misapprehension, thinking his ac-
count would be so small that no bank
would care for it. As a matter of fact,
"The First National," the oldest,
largest and strongest National bank
in Connellsville, makes a specialty of
small accounts—welcomes them
gladly and pays 4% interest on sav-
ings accounts which may be opened
with \$1 or more.—Adv.

AN OFFER BY LOCAL DRUGGISTS

Now Have New "External" Treatment
That They are Selling on
30 Days' Trial

Money Refunded if It Does Not Re-
lieve All Croup and Cold Troubles
Quicker Than Internal Medicines.

The local druggists have recently
imported from the south the new "ex-
ternal" treatment for all croup and
cold troubles, known as Vicks Vapo-
r and Pseudoephedrine. The druggists
whose names are given below are
showing their confidence in this new
treatment by offering it for sale in
30, 60 and 90 day trials, on 30 days
trial. With each package bought
you are given a refund blank. If
you do not find Vicks better than any-
thing you have ever used present this
blank to your druggist any time with-
in 30 days from the date of purchase
and your money will be promptly re-
funded.

This new preparation will appeal
especially to mothers as it is entirely
external and can be used with per-
fect safety on the youngest mem-
bers of the family.

The treatment is the discovery of
a North Carolina druggist who found
how to combine Pine Tar, Thymol,
Eucalyptol, Menthol, Camphor, etc.,
in the form of a gelatin capsule, a
process so simple that when applied over
the throat and chest the heat of the body
would release the ingredients in the
form of vapors.

These soothing, healing vapors are
inhaled with each breath at the same
time the preparation is absorbed
into the system.

After a night's application you
hardly realize that you had a cold as
the head is clear, phlegm loosened,
and soreness gone from the lungs. In
cases of croup positive relief is as-
sured in fifteen minutes. Sufferers
from asthma, catarrh, bronchitis, trou-
bles, hoarseness, etc., will find this
treatment remarkably effective.

Don't hesitate to take advantage of
this 30 day trial offer from any of
the druggists.—Advertisement.

Clean your sinks with GOLD DUST

No place in the home
gathers grease as quickly as
the kitchen sink. Gold Dust
washing powder, however, has
the peculiar quality of dissolv-
ing and cutting grease and if,
after each dishwashing, a suds
is made in the dishpan with
warm water and Gold Dust,
and the sink thoroughly rinsed
with these suds, the last par-
ticle of dirt and grease will be
removed.

The sink pipe will never
become clogged with grease if
Gold Dust and plenty of hot
water are used for washing
the sink morning and evening.

TO BE PRETTY, A WOMAN'S HAIR MUST BE FREE FROM DANDRUFF

A pretty woman may enhance her beauty and a plain woman become good looking by the proper care of her hair.

Nice hair, pretty hair, growing on the head it adorns, is one of nature's greatest beautifiers.

The kind of hair which always makes us look the second time, follows the use of Newbro's Kerpicide, and is possible for every woman.

The results following regular applications of Newbro's Kerpicide are wonderful. It not only cleans the scalp entirely of dandruff, but helps the coming out, adds to the life, luster and luxuriance which are so essential to hair beauty.

Newbro's Kerpicide is the Original scalp prophylactic. All other hair remedies claiming to kill the dandruff germ are simply trying to trade upon the reputation of genuine Kerpicide.

Applications may be obtained at good barber shops and hair dressers. Send 10c in postage to The Kerpicide Co., Dept. R., Detroit, Mich., for sample and booklet.

Newbro's Kerpicide in 50c and \$1.00 sizes is sold by all dealers who guarantee it to do all that is claimed. If you are not satisfied your money will be refunded. Graham & Co., Special Agents—Advertisement.

FUNERAL TIME.
The funeral services for Mrs. Bertha May Brownfield, wife of Joseph Brownfield, who died Saturday evening, aged 41 years, will be held from her late residence on Walnut avenue on Thursday afternoon at 2 o'clock.

WAS AN ACCIDENT.
Deputy Coroner Ferguson held an inquest Monday evening in the death of Andrew Nelson, millwright at the Old Meadows mill, who was killed on Sunday morning. Several witnesses were examined and from the testimony it seemed that the man's certain time of death had come. He was the one who had entire charge of the operation of changing the rolls, and chose a five-ton lift on crane for the job, although a 30-ton one was beside it, as the smaller one moves the faster. The small one was not used for weights, it was used to move its capacity. The hoisting which was to be lifted weighed 15 tons or more and the five-ton crane broke down with the load. Several of those about were watching it and warned Nelson of the danger. A heavy nut broke and fell from the crane striking the man on the back. He picked the nut up, and then with his arm advised him to watch out for something else might fall. He went ahead, however, and it was only a minute or so until the shaft fell and crushed his skull. The man was an experienced one, employed for years, and accustomed to working about the mill. The jury rendered a verdict of accidental death, due to carelessness in using an insufficient crane for the work. They did not leave their places to render their verdict, being agreed up on the testimony brought out.

LECTURE TONIGHT.
Dr. Isaac T. Headland, one of the foremost missionaries in China, and one of the most conversant with the ways and interests of that country, will lecture at the First Presbyterian church this evening.

NOTES.
Mr. and Mrs. V. A. Condon of Scottdale; Mrs. Anna Freeman of Greensburg; Mr. and Mrs. George E. Freeman of Greensburg; and Charles Freeman of North Side, Pittsburg, were visiting their parents, Mr. and Mrs. George D. Freeman of Mount Pleasant on Sunday.

J. Donald Porter, son of Mr. and Mrs. M. B. Porter of Market street, returned to his studies at Dickinson College on Monday.

Mrs. Mary Rafteren has returned from a six weeks stay in Pittsburg, where she was visiting her children, Frank Rafteren, Mrs. Amanda Rafteren, and Misses Mary and Allen Rafteren.

Mrs. John Robertson was here from Pittsburg for a day attending to business matters about her old home. Mrs. Robertson, who had been seriously ill is so much improved in health that many of her old friends did not at first recognize her. Her husband, Comrade John Robertson has suffered another stroke of paralysis but is showing signs of improvement.

W. C. Mellinger is visiting the family of U. R. Myers, formerly of this place and now of Man's Choice.

Among the real estate transfers recorded at Greensburg are: W. J. Latimer lot in East Huntington township.

Dr. Leonhardt's Hem-Roid Cures Piles

A regular physician's treatment, called HEM-ROID, is the result of practical experience and scientific research. Thanks to the Doctor's generosity it can now be obtained at drug-gists all over America.

The treatment is clean and simple and a \$1.00 package includes a 21 days' supply of tonic tablets for internal use that act on the circulation, gradually reducing the swollen parts until the piles disappear entirely; never to return. A. A. Clark guarantees it.

Any doctor can cut out piles but so long as the cause remains they will return. Ask for Dr. Leonhardt's HEM-ROID. It removes the cause, booklet from Dr. Leonhardt Co., Buffalo, N. Y.—Adv.

to C. R. Latimer for \$3,100, March 15, 1913, and M. E. Price lot in Scottdale to W. H. Geyer for \$1, March 15, 1913. Mrs. Alice Gardner and son, Ernest, are enjoying a stay at Atlantic City, for the benefit of the former's health. Miss Helen Strickler, daughter of Dr. and Mrs. A. W. Strickler and Miss Helen Strickler, daughter of Mrs. Lila Sisley are here this week enjoying the spring vacation of Indiana State Normal School.

E. J. Keltz and family move this week to Latrobe, from the Stoner farm which they had rented west of town.

James Mellon spent Sunday with his parents, Mr. and Mrs. Thomas Mellon of Manor.

GINK AND DINK—No, Josie Gink Wouldn't Trifle With Her Husband.

By C. A. Voight.

A Scene from "Buntly Pulls the Strings."

WINDSOR RIVAL OF TORONTO AS STEEL CENTER OF CANADA

Larger City Faces Loss of Title "Pittsburg of Dominion."

ENJOYS PECULIAR SITUATION

United States Steel Corporation Proposes to Erect Big Mill; Site is Already Acquired and First Steps Under Way for the Big Enterprise.

Toronto, which claims to be the Pittsburgh of Canada, will have to look well to its laurels, judging from the report of Consul Harry A. Conant of Windsor, Ontario, which report appears in the Daily Consular and Trade Reports of recent date. Consul Conant says:

"In considering the city of Windsor in any of its aspects it is well to keep in mind its peculiar situation, being flanked on the north by the town of Walkerville and Ford City with but a single street forming the boundary line between these three municipalities, and the town of Sandwich on the south separated by a space of less than a half mile. These four corporations, each with its own municipal government, practically form one city seven miles long, fronting on the Detroit river, and connected by continuous streets and electric railways. With business and social affairs thoroughly intermingled."

It is here that the United States Steel Corporation proposes to erect a large steel plant. Referring to this enterprise, the consul says:

"An announcement of special interest was made at the beginning of 1913 by the chairman of the Board of Directors of the United States Steel Corporation, that a Canadian steel plant would be established immediately below and adjoining the southern boundary of Sandwich, on a site already acquired. The property in question extends about two miles along the river front and two miles back. It is estimated there are 2,000 acres reserved for the construction of a plant, that the chairman says will cost \$25,000,000."

"In preparation for the coming of the steel plant, officials of the Essex Terminal railway have adopted plans for an extension of the railway line from its present terminus in Sandwich through the site of the big plant. Engineers are already at work surveying the route of the line, which is to be carried to Turkey creek at the lower end of the steel city, and con-

struction work will be started early in the spring of 1913.

"Application for the incorporation of the promised steel city as a separate municipality has already been made to the Ontario Legislature. In compliance with the requirements of the law the first publication of the application appeared in the Ontario Gazette in Toronto during the session. The name of the new city is yet to be selected."

FAVORS HIGHEST UTILIZATION

Secretary of Interior States His Position on Public Land Resources. Secretary of the Interior Franklin K. Lane has stated his position with respect to insuring the highest utilization of public land resources in a case of great importance in which much interest is being manifested in the Pacific Northwest.

The Secretary recently received through Senator Polindexter a telegram from a State Senator stating that the Legislature of Washington had unanimously passed an act reserving all waters in the Wenatchee basin, but that before the act was signed by the Governor certain power interests had filed on these waters, and arguing the President and the Secretary of the Interior to serve the best interests of the State of Washington by maintaining intact President Franklin D. Roosevelt's order withdrawing the 18,653 acres of reservoir sites involved. Both this Federal withdrawal and the State reservation were made with a view to possible utilization of the water for the irrigation of the 200,000 acres in the Quincy Valley, on the east side of Columbia river, which, as stated in the telegram to Senator Polindexter, "means millions to the State of Washington and further development of Quincy Valley."

The Secretary's letter to Senator Polindexter points out clearly that he has no intention of revoking the order of withdrawal of the public land. He states:

"This action by the Federal Government was initiated in response to the request of citizens of your State, and in view of the recent action of the Washington Legislature reserving all waters in the Wenatchee watershed it illustrates the type of cooperation between State and Nation necessary to promote the highest utilization and development. You may be assured, therefore, that no revocation of this executive withdrawal will be recommended without first affording full opportunity for the presentation of the views of your constituents and for the complete investigation of the possible uses of this river."

Killed Under Train. Peter Swed, 40 years old, a resident of Summit, was killed yesterday in Seattle by being run over by a Pullman & Lake Erie shifter of the Grand Pacific branch.

"BUNTLY PULLS THE STRINGS"

"Buntly Pulls the Strings" will be the attraction at the Soisson theatre tonight. Ever since it was produced in London two years ago—and its success in the English metropolis duplicated in New York, Chicago and throughout Canada—it has been a subject of comment as to the causes of the wonderful interest shown in "Buntly."

The best that can be said is why do we love our grandmothers, and why do we like the old candidate with its zittering pendulous flesh hanging upon us all the many colors of the rainbow, and the tall old "corner boy" slowly licking our lives away from the cradle to the grave, that adorn the old parlor, better than the modern electric light? They bring us back to the old days, and that is the secret of "Buntly's" success.

Nothing seems planned. The characters seem to just live before us, and there is no suggestion of a plot or climax to offend the sensitive ear, and

while you have not made the voyage, it is just like transporting a bit of quaint old Scotland to you as you sit in a comfortable orchestra chair and enjoy the charm of the visit.

"BREWSTER'S MILLIONS"

"Brewster's Millions" the most successful farce comedy of recent years, will be the attraction at the Soisson theatre, matinee and night. Saturday, April 5, Walter Allen will be seen as "Money" Brewster, which he plays so well that one forgets the absurdity of the thing and sympathizes with the young millionaire in his desperate effort to get rid of one million within a year in order to be eligible for a second inheritance of seven times that amount. The other characters are in practically the same capable hands identified with the play during its run of 93 consecutive weeks. Catherine Caspell, a charming and winsome actress, will be seen as "Penny" Gray. The week scenes and the stormy storm at sea is the masterpiece of Frederic Thompson's stagecraft. It is a play one can see several times and still chuckle.

ENVELOPE SHORTAGE

Paces Postoffice as the Dayton Factory Was Flooded.

The government's stamp envelope factory at Dayton, Ohio, has been temporarily closed on account of the damage resulting from the recent disastrous floods, and it is likely that the Connelville office may run short of stamped paper. Pending repairs, the supplying of special-request and office-request envelopes will be suspended by the department. It is believed, however, that production will soon be resumed.

The department has an ample supply of plain, unprinted stamped envelopes throughout the country, which will be issued as long as they last.

The Greensburg electrical firm, which was awarded the contract for supplying individual lights and electrical appliances at the postoffice, began filling the contract yesterday.

GOING SOME

A ROMANCE OF STRENUOUS AFFECTION

BY REX BEACH

SUGGESTED BY THE PLAY BY REX BEACH AND PAUL ARMSTRONG

Illustrated by Edgar Bert Smith

COPYRIGHT 1910 BY HARPER & BROTHERS

For one breathless instant there was a hush of amazement, then a cry of rage. Still Bill Stover buried the nearest man out of his path, and strode forward, his lean face ablaze.

"This Little Fellow I'm Training—Does He Win?"

He wheeled and flung up his hand as if to check some hidden movement of Willie's.

"No violence yet, Will! What do you mean, Mr. Speed?"

Speed uttered what he knew was his final joke on earth. "I mean that I refuse to run straightaway. I'm an all-around athlete, and I must run all around something."

Amid shouts of confusion, those who had taken position along the course came crowding back to the starting point. Willie wrapped his legs about the top rail of the fence and drew a second revolver, while the two foremen belted indistinguishable threats at each other. Chapin lost no time in withdrawing his guests out of the turmoil, but Helen kept her place, her face chalky but her eyes very bright.

"What are you trying to head us?" roared Gallagher.

Still Bill was quick to take a cue. "Don't get excited!" said he. "There's nothing in the articles about running straight. Let 'em run around the corner."

But at this suggestion every voice seemed to break simultaneously.

"Humpy Joe ran straightaway," declared Gallagher.

"Yes, an' he kept at it," piped Willie. "I favor the idea of them runners comin' back where they start from."

"Listen, all of you," Speed announced. "I am going to run around and around the corner this corner. If Mr. Skinner chooses to accompany me, he may trail along; otherwise I shall run alone."

"Never heard of such a thing!" Gallagher was dancing in his excitement, but Skinner calmed him by announcing, curtly:

"I'll beat him any way he wants to run."

"You couldn't beat a rug," retorted Wally, and Glass suddenly snote his palms together, crying, blankly:

"I forget the rug!"

"We don't want no argument after wards. Does the Centipede accept its fate?" Still Bill glared at the faces of the runners.

"We do it Skinner says so."

"Twice around the corner!" agreed Skinner. "But no accidents, understand? If he falls, I keep going."

Instantly there ensued a scramble for grand-stand seats; the cowboys swarmed like insects upon the stout fence of the corral.

"Then you'll start and finish here. Once you'll pass we'll stretch a string yonder post, and the first man to bust it wins. Who's got a string?"

"Mr. Gallagher, won't you use my saw?" Helen quickly unfurled the long blue bow of ribbon from her cotton gown, and Gallagher thanked her, adding:

"Moreover, the winner gets it!"

For the first time, then, Skinner addressed Miss Blake.

"Haden't you better make that the lower, miss? The winner gets the coin, and the ascent came in a flashing smile from the sky-blue eyes."

"Then the lower gets the ribbon!" Gallagher announced loudly, and made one end fast to the corral. "Which I call ban'some treatment for Mr. Speed, an' only wish we might relate it at the Centipede as a remembrance. Are the runners ready?"

Those near the starting-point gave room. Skinner stepped quickly out from his blanket, and stamped his spikes into the soil; he raised and lowered himself on his toes to try his muscles. Speed drew his bathrobe from his shoulders and thrust it to ward his trainer, who shook his head, "Give it to Covington. Do! I won't be here when you come back."

"Get on your marks!" The starter gave his order.

Speed set his spikes into the dirt, brought his weight forward upon his hands. He whispered something to Skinner. That gentleman straighten-

ed up, whereupon Willie cried for a second time:

"On your marks!" and again Skinner crouched.

"Get set!"

The crowd filled its lungs and waited. Helen Blake buried her nails in her rosy cold palms. Chapin and his friends were swayed by their hearts, while even Fresno was but once upon his toes, his plump face eager. The click of Willie's gun sounded sharp as he cocked it.

Into the air close by his cheek Speed again whispered an agonized—"Don't forget to fall down!"

This time the cock of the Centipede leaped backward with an angry snarl, while the crowd took breath.

"Make him quit talking to me!" cried Skinner.

Gallagher uttered an imprecation and strode forward, only to have his way once more barred by Still Bill Stover. "He can talk if he wants to."

"There is nothing," Speed pointed out with dignity, in the articles to forbid talking. If I wished to, I could sing. Yes, or whistle, if I felt like it."

"On your marks!" came the ringing voice of Willie as Wally murmured to Skinner:

"Remember, I trust you."

Skinner ground his teeth; the tendons in his calves stood out rigidly.

"Get set!"

Once more the silence of death wrapped the beholders, and Willie raised his arm.

Speed cast one lingering farewell glance to the skies, and said, devoutly: "What a beautiful, beautiful day!"

Now the starter was shaking in an agony of fury.

"Listen, you!" he chattered, shrilly. "I'm going to shoot twice this time—once in the air, and the next time at the nearest foot-runner. Now, get set!" and the speaker pulled the trigger, whereupon Speed leaped as if the bullet had been aimed at him.

Instantly a full-throated roar went up that rolled away to the foothills, and the runners sped out of the pandemonium, their legs twinkling against the dust-colored prairie. Down to the turn they raced. Speed was leading. Fright had acted upon him as an electric charge; his terror lent him wings; he was obsessed by a propelling force outside of himself. Naturally strong, lithe, and active, he likewise possessed within him the white-hot flame of youth, and now, with a nameless fear to spur him on, he ran as any healthy, frightened young animal would run. At the second turn Skinner had not passed him, but the third of his feet was close behind.

"That unparalleled phenomenon surprised Lawrence Glass perhaps most of all. Was this a miracle? He turned to Covington, to find him dancing madly, his crutches waving over his head, in his eyes the stars of a maniac. His mouth was distorted, and Glass reasoned that he must be shouting violently, but could not be sure. Suddenly Covington dashed to the turn whence the runners would be revealed as they covered the last half lap, for nothing was distinguishable through the fence, burdened by human forms, and Larry lumbered after him, plunging his way through the crowd and colliding with the box upon which stood the Echo Phonograph, of New York and Paris. He buried Marielotta out of his path with brutal disregard, but even before he could reach his point of vantage the sprinters burst into the homestretch. Larry was behind him.

CHAPTER XVIII.

His only thing in the world that the victorious Speed wanted was to lie down and stretch out and allow those glowing coals in his chest to cool off. But rough hands seized him, and he found himself astride of Stover's shoulders and grasping about the Echo Phonograph in the midst of a wardrobe.

He kicked violently with his spiked shoes, whereas the foreman bucked like a wild horse under the spur and dropped him, and he staggered out of the crowd, where a girl flew to him.

"Oh, Wally," she cried, "I know you could!" He sank to the ground, and she knelt beside him.

Skinner was prepped against the corral fence opposite, his face distorted with suffering, and Gallagher was rubbing his ankle.

"Taint broke, I reckon," said Gallagher, rising. "I wish to hell it was!" He stared disgustedly at his fallen champion, and added: "We don't want y'all for a cook no more, Skinner. You never war the good to him. He turned to Helen and handed her a double handful of bank-notes, as Berkeley Fresno buried his hands in his pockets and walked away. "Here's your coin, miss. If over you get another hunch, let me know. An' here's yours, Mr. Speed; it's a waddin'-presenter from the Centipede." He fetched a deep sigh. "Thank the Lord we'll get something fit to eat from now on!"

Speed staggered to Skinner, who was still nursing his injury, and held out his hand, whereas the cock winked

him set off across the prairie for New York.

The memory of that race awakened Speed from his slumbers many times in later years. When he found the brown shoulder of his rival drawing past he realized that for him the end of all things was at hand. And yet, so it said to his credit, he held doggedly to his task, and began to fight his waiting strength with renewed determination. Down through the noisy crowd he pounded at the heels of his antagonist, then out upon the second lap. But how his fatigue increased rapidly, and as it increased, so did Skinner's lead. At the second turn Wally was hopelessly outdistanced, and began to sob with fury, in anticipation of the last, long, terrible stretch. Back toward the bank turn they came, the college men desperately laboring, the cook striding on like a machine. Wally saw the rows of forms standing upon the fence, but of the shouting, he heard nothing. Skinner was twenty yards ahead now, and flung a look back over his shoulder. As he turned into the last straightaway he looked back again and grinned triumphantly.

Then—J. Wallingford Speed gasped, and calling upon his uttermost atom of strength, quickened the strides of his leaden legs. Skinner had fallen!

A shriek of exultation came from the Flying Heart followers; it died as the unfortunate man struggled to his feet, and was off again before his opponent had overtaken him. Down the alley of human forms the two came; then as their man drew ahead for an instant or two, such a bedlam broke forth from Gallagher's crew that Lawrence Glass, well started on his overland trip, judged that the end had come.

But Skinner wavered. His ankle turned for a second time; he seemed about to fall once more. Then he righted himself, but he came on hobbling.

The last thirty yards contained the tortures of a lifetime to Wally Speed. His lungs were bursting, his head was rolling, every step required a separate and concentrated effort of will. He knew he was wobbling, and felt his knees ready to buckle beneath him, but he saw the blue light-stretched ribbon just ahead, and continued to lessen the gap between himself and Skinner until he felt he must reach out wildly and grasp at the other man's clothing. Helen's face stood out from the mob and her lips cried to him. He plunged forward, his outstung arm tore the ribbon from the fastening, and he fell. But Skinner was behind him.

As he turned into the last straightaway he looked back again and grinned triumphantly.

Then—J. Wallingford Speed gasped, and calling upon his uttermost atom of strength, quickened the strides of his leaden legs. Skinner had fallen!

A shriek of exultation came from the Flying Heart followers; it died as the unfortunate man struggled to his feet, and was off again before his opponent had overtaken him. Down the alley of human forms the two came; then as their man drew ahead for an instant or two, such a bedlam broke forth from Gallagher's crew that Lawrence Glass, well started on his overland trip, judged that the end had come.

But Skinner wavered. His ankle turned for a second time; he seemed about to fall once more. Then he righted himself, but he came on hobbling.

The last thirty yards contained the tortures of a lifetime to Wally Speed. His lungs were bursting, his head was rolling, every step required a separate and concentrated effort of will. He knew he was wobbling, and felt his knees ready to buckle beneath him, but he saw the blue light-stretched ribbon just ahead, and continued to lessen the gap between himself and Skinner until he felt he must reach out wildly and grasp at the other man's clothing. Helen's face stood out from the mob and her lips cried to him. He plunged forward, his outstung arm tore the ribbon from the fastening, and he fell. But Skinner was behind him.

CHAPTER XVIII.

His only thing in the world that the victorious Speed wanted was to lie down and stretch out and allow those glowing coals in his chest to cool off. But rough hands seized him, and he found himself astride of Stover's shoulders and grasping about the Echo Phonograph in the midst of a wardrobe.

He kicked violently with his spiked shoes, whereas the foreman bucked like a wild horse under the spur and dropped him, and he staggered out of the crowd, where a girl flew to him.

"Oh, Wally," she cried, "I know you could!" He sank to the ground, and she knelt beside him.

Skinner was prepped against the corral fence opposite, his face distorted with suffering, and Gallagher was rubbing his ankle.

"Taint broke, I reckon," said Gallagher, rising. "I wish to hell it was!" He stared disgustedly at his fallen champion, and added: "We don't want y'all for a cook no more, Skinner. You never war the good to him. He turned to Helen and handed her a double handful of bank-notes, as Berkeley Fresno buried his hands in his pockets and walked away. "Here's your coin, miss. If over you get another hunch, let me know. An' here's yours, Mr. Speed; it's a waddin'-presenter from the Centipede." He fetched a deep sigh. "Thank the Lord we'll get something fit to eat from now on!"

Speed staggered to Skinner, who was still nursing his injury, and held out his hand, whereas the cock winked

him set off across the prairie for New York.

The memory of that race awakened Speed from his slumbers many times in later years. When he found the brown shoulder of his rival drawing past he realized that for him the end of all things was at hand. And yet, so it said to his credit, he held doggedly to his task, and began to fight his waiting strength with renewed determination. Down through the noisy crowd he pounded at the heels of his antagonist, then out upon the second lap. But how his fatigue increased rapidly, and as it increased, so did Skinner's lead. At the second turn Wally was hopelessly outdistanced, and began to sob with fury, in anticipation of the last, long, terrible stretch. Back toward the bank turn they came, the college men desperately laboring, the cook striding on like a machine. Wally saw the rows of forms standing upon the fence, but of the shouting, he heard nothing. Skinner was twenty yards ahead now, and flung a look back over his shoulder. As he turned into the last straightaway he looked back again and grinned triumphantly.

TESTING STATION FOR PITTSBURG IS VIRTUALLY CERTAIN

Negotiations for Transfer of
Site are About Com-
plete.

MINING MEN MEET OFFICIALS

Director Holmes Expresses Satisfac-
tion That Bureau of Mines Can Con-
firm Its Tests in the "Workshop
of the World." Plans are Outlined.

Negotiations between the United States government, the city of Pittsburg and the Board of Public Education, relative to giving the Bureau of Mines testing station a permanent location in Pittsburg have practically been completed. Nearly all arrangements for the transfer of land to enable the bureau to secure the Marco property at Forbes street and Moorewood avenue, have been made and it is expected that before long Pittsburg will be the scene of experiments that will prove beneficial to the entire mining world.

Several representatives of the government and of the Bureau are in Pittsburg to inspect the proposed site, and these, with others representing the Pittsburg organizations interested, were entertained at lunch Saturday in the Pittsburg Athletic Association clubhouse. The Chamber of Commerce, which was instrumental in bringing about the negotiations, acted as host. The guest list included the following:

Dr. J. A. Holmes, Director of the United States Bureau of Mines; Oscar Wendorff, Supervising Architect of the United States Treasury Department; General W. H. Hixby, Chief Engineer of the United States Army; Dr. S. W. Stratton, Director of the Bureau of Standards; Van H. Manning, Assistant Director; H. M. Wilson, Engineer in charge of the Bureau of Mines; O. P. Hood, Chief Mechanical Engineer of the Bureau of Mines; G. A. Hulet, Chemist; G. S. Rice, Mining Engineer; President W. H. Stevenson, D. P. Black, Dr. S. B. McCormick, B. G. Hollander, Dr. A. Hamerschlag, W. G. Williams and General Albert J. Logan, representing the Chamber of Commerce; Mayor W. A. Magee, C. A. O'Brien, C. E. Joren, Councilman J. M. Goehring and Robert Garland, representing the city; Taylor Allderfer, Marcus Aaron and N. E. Criss of the Board of Public Education, and Congressman James Francis Burke.

A review of the efforts of the Chamber of Commerce to secure greater appreciation on the part of the government of the results gained by the Bureau of Mines in its effort to promote safety in mining was given by President Stevenson of the Chamber of Commerce. Mr. Stevenson declared the work of the Bureau has resulted in the saving of thousands of lives, and has not only decreased the death rate in mine accidents, but has proved of invaluable benefit in its investigations in connection with the testing of fuel and structural materials.

Great satisfaction over the successful termination of negotiations was expressed by Dr. Holmes. He said he was pleased with the possibility of conducting such work as the bureau handles in a city like Pittsburg. He brought out that here every advantage is had in the way of information available from the University of Pittsburg, Carnegie Institute of Technology and the splendid technical references at Carnegie Library, and by reason of Pittsburg being the center of great industrial and mining activities.

Dr. Holmes said the investigations of the bureau would attract to Pittsburg the attention of the entire mining and scientific world, and in addition, he said, the city would be furnished with a new industry, employing a large number of technical people. He complimented the people of Pittsburg for their enterprise and cooperation and thanked the Chamber of Commerce, City Council, the Mayor and Board of Public Education for assistance.

Congressman James Francis Burke told of the efforts made to secure congressional action in support of the bureau, and of the appropriation necessary to conduct the bureau's work on the extended system by which it will be operated here.
